SUMMARY OF INCENTIVE PROGRAM

The Entergy Solutions Efficiency Programs are designed for customers requiring technical assistance to engage in energy efficiency projects. The incentives for the CitySmart Program range between \$0.12 and \$0.15 per saved kilowatt hour (kWh) for qualifying projects. The programs help to improve the efficiency and performance of participating facilities while achieving significant, long-term energy savings. The incentives help offset the cost of the energy efficiency upgrades. See the attached Program Fact Sheets for additional details.

While the energy audit contained in this summary has been reviewed for technical accuracy, Entergy Arkansas and CLEARResult do not guarantee the cost savings or the reduction in total energy consumption presented in the energy analysis and shall not be liable in the event that potential energy savings are not achieved.

SUMMARY OF RECOMMENDATIONS

Energy Conservation Measure (ECM)	Incentive Rate*	Estimated kWh Savings	Estimated kW Savings	Annual Cost Savings	Incremental Cost	Simple Payback (Yrs.)**	IRR***
Emergency Generator Heat Pumps	\$0.12	187,808.18800	10.83028	\$12,564.37	\$27,250.00	0.38	267%
Bonus Incentive		0.00000	0.00000	\$0.00	0.00		TBD

*The utility incentive available is UP TO \$0.15 for CitySmart per kWh saved, but not to exceed 100% of the ECM implementation cost.

** Simple payback incorporates the estimated incentive.

*** IRR is based on an unfinanced measure cost and measure life. The assumed utility escalation rate is 0%.

By signing below the Participant acknowledges the following Terms and Conditions:

1. The programs will reserve incentive funds for eligible energy-saving/energy conservation measure (ECM) projects and will pay the participant monetary incentives based on projects completed within each program year.
2. Participant will make its best effort to complete and submit relevant project application forms, including necessary supporting documentation for each project, in a timely manner. The project application process is required in order to reserve financial incentives for projects.
3. Participant acknowledges that, as part of its participation in this program it waives the right for the self-direct option during the five years following the receipt of its incentives and/or direct install equipment.
4. Participant acknowledges that, as part of its participation in this program, it will maintain eligibility to receive program services and incentives for a period of five years from the date the participant receives the incentives for completed energy-saving projects and/or direct install equipment installed at their organization.

DISCLAIMER:

The selection of a participating contractor to perform work is the sole decision of the property owner, customer, and/or authorized lessee/occupant. Although a list of approved contractors is prepared in connection with this program, inclusion of a contractor in the participating contractor list for the program does not constitute an endorsement by Entergy Arkansas or CLEAResult of any product, individual, or company. Work performed by participating contractors is not guaranteed or subject to any representation or warranty, either expressed or implied or otherwise, by either Entergy Arkansas or CLEAResult. Neither Entergy Arkansas nor CLEAResult makes any guarantee or any other representation or warranty expressed or implied or otherwise, as to the quality, cost, or effectiveness of any product(s) provided or work(s) performed by any participating contractor, by any such participating contractor's employees, subcontractors or suppliers. Energy efficiency gains are subject to a number of variable conditions and circumstances. While it is the intent of the program to achieve energy efficiencies at the participant's facilities neither Entergy Arkansas nor CLEAResult guarantees or warrants that any specific energy efficiency gains will be achieved for a particular customer under the program.
