

PRODUCT DISCONTINUATION NOTICE

EFFECTIVE DATE
April 15, 2015

12 KILOWATT, 208 VOLT, SINGLE-PHASE CSM FORCED CIRCULATION HEATING SYSTEM

OVERVIEW

AFFECTED EQUIPMENT

12 kilowatt, 208 volt, 60 hertz, single-phase CSM model variant (CSM11208-000).

NOTICE SCOPE

Notification of model variant discontinuation.

BACKGROUND

As of April 15, 2015, the 12 kW, 208 V, 60 Hz single-phase variant (CSM11208-000) of the CSM series will no longer be offered. All other CSM variants are unaffected and will remain available for purchase.

For assistance with your heating system, including warranty inquiries, please contact HOTSTART Customer Service directly at **509.536.8660**. View our online terms and conditions at www.hotstart.com/en/home/resources/terms-conditions/.

RECOMMENDATIONS & INSTRUCTIONS

- For customers with larger engines (4500 to 6000 cubic inches or 75 to 100 liter displacement) requiring a single-phase power source:

For customers seeking a forced circulation heating system for large engines, HOTSTART recommends selecting the 10.5 kilowatt, 208 volt, 60 hertz, single-phase CSM variant (CSM11058-000). The 10.5 kW CSM variant is specifically designed as a direct replacement for the 12 kW, 208 V, 60 Hz, single-phase CSM and is capable of meeting the heating requirements of engines 75 liters to 100 liters in size.

- For customers with larger engines (4500 to 6000 cubic inches or 75 to 100 liters) with an available 208 volt, three-phase power source:

If a three-phase power source is available, HOTSTART recommends the three-phase, 12 kilowatt, 208 volt CSM model (CSM31208-000).

For a listing of all forced circulation heating models, view our online product catalog at www.hotstart.com/en/home/products/forced-circulating-heating-systems/

- For customers with unique applications, power source restrictions, or applications requiring high-wattage heating:

Large-engine applications may require dual-fluid heating systems, redundant heating, or other customized heating solutions. HOTSTART recommends customers contact our customer service team directly by email or phone. Our sales representatives and engineers can partner with you to design and construct a customized heating system to meet your needs.

QUESTIONS & ASSISTANCE

If you have questions regarding the 12 kilowatt, 208 volt, 60 hertz, single-phase CSM model variant discontinuation, related parts or any other heating system options, please contact HOTSTART Customer Service at **509.536.8660** or sales@hotstart.com.
