

Contract Manufacturing: PANEL ASSEMBLY - UL 508A / NNNY

Over 75 years of complete manufacturing from design to delivery has been the foundation of Hotstart's success. Our vertically integrated manufacturing and production capabilities allow for custom fabricated components and systems for Original Equipment Manufacturers.

Hotstart's Panel Assembly capabilities include the design and assembly of UL 508A and UL NNNY listed industrial control panels. Complex systems require robust controls. Hotstart integrates power, controls, relays, motors, interfaces and other components into various rated boxes depending on the ingress protection or hazardous location requirements. Contact Joe Goggin, New Business Development Manager, at jgoggin@hotstart.com for more information or to submit your project RFQ.

INDUSTRIES SERVED:

- Advanced Power Systems
- Energy Storage System Controls
- Solar Power Generation
- Fuel Cell Controls
- Industrial Process Controls
- Thermal Management Controls
- Water and Waste Management
- Oil and Gas Pipeline Control Systems
- And many more...

CERTIFICATIONS:

- UL 508A - E501923:
 - Industrial Control Panels
- NNNY - E502387:
 - Industrial Control Panels & Assemblies for use in Hazardous Location: Class I, Division 1, Groups B, C, and D Hazardous Locations

FILES ACCEPTED:

- DXF
- X_T
- STEP
- IGES
- ACIS
